PROFESSIONAL PROFILE

Enterprise AI consultant, solutions architect and corporate trainer with **8+ years of experience** in applied AI engineering and technical education. Trained **10,000+ learners across corporate and institutional programmes** and built production-grade systems across generative AI, RAG, intelligent automation, model serving and governance. Currently delivers OpenAI programme training through partner organisations for developers, architects and senior leaders. Brings together technical depth, business communication and practical enablement to turn AI opportunities into measurable outcomes.

CORE EXPERTISE

AI Consulting & Architecture | Enterprise AI adoption, solution architecture, AI use-case assessment, technical advisory, stakeholder communication, governance

Corporate Training & Enablement | Executive AI workshops, technical training, curriculum design, hands-on labs, developer enablement, knowledge transfer

Generative & Agentic AI | LLMs, RAG, AI agents, LangChain, LangGraph, Model Context Protocol (MCP), prompt engineering, model evaluation, guardrails

Engineering & Delivery | Python, FastAPI, Django, REST APIs, Qdrant, PostgreSQL, MongoDB, Docker, AWS, Azure, Ollama, GPU inference, MLOps

PROFESSIONAL EXPERIENCE

OpenAI Programme Master Trainer

VMS Group APAC / Channel Partners Solutions, LLC | October 2026 - Present

- Deliver OpenAI programme training through partner organisations for **enterprise architects, developers, business professionals and senior management**, connecting AI capabilities with practical adoption.
- Delivered programme sessions to professionals from **Accenture, IBM, TCS and Brillio**; tailor demonstrations and discussions to enterprise workflows and audience needs.
- Guide architecture and implementation discussions with technical and business audiences, explaining integration choices, practical limitations and responsible-use safeguards through demonstrations.

Senior AI Engineer

DTBX Innovate Pvt. Ltd. | May 2025 - September 2026

- Architected banking and compliance AI solutions, making technical decisions across retrieval design, model integration and validation guardrails to balance accuracy, reliability and control.
- Built LLM-powered regulatory document workflows, **reducing manual drafting by 65%** and reaching 85% reviewer acceptance per draft iteration.
- Delivered a hybrid-retrieval RAG system with Qdrant and streaming APIs, achieving **88% answer grounding** and reducing no-result queries by 35%.
- Deployed open-source LLMs on **NVIDIA A100 GPUs** with concurrent inference, API integration, optimisation, health checks and monitoring.
- Developed guarded natural-language-to-SQL capabilities, achieving 96% successful query execution in controlled testing.
- Created quality-controlled pipelines for **150,000 AI training samples** and governance scoring for **120+ APIs**.

CORPORATE AI TRAINING & CONSULTING

Delivered customised AI and technology training to corporate and institutional audiences, including professionals from **Tata International, Ajanta Pharma and Prilient Technologies**.

- Designed audience-specific programmes in generative AI, machine learning, automation, Python, MLOps and cloud technologies.
- Developed live demonstrations, practical exercises and application-based learning for technical and business teams.
- Helped professionals assess where AI tools fit their workflows and understand the implementation choices and limitations.

EARLIER EXPERIENCE

Technology Expert - AI & MERN

Gandhi Institute of Technology and Management (GITAM) | July 2024 - April 2025

- Delivered hands-on training and mentorship in AI, machine learning, Python and full-stack engineering; guided industry-focused applications.
- Developed a skills assessment platform supporting 160 users across 165 skill categories.

AI Engineer & Educator

SmartByte Computer Education | August 2018 - July 2024

- Designed and taught applied AI programmes across machine learning, deep learning, NLP, computer vision, data science and Python.
- Built and mentored projects in predictive analytics, classification and image recognition, from data preparation through evaluation and deployment.

Programming Trainer

SmartByte Computer Education | August 2014 - August 2018

Delivered foundational programming, Python, JavaScript and web-development instruction to students and working professionals.

SELECTED ENTERPRISE AI WORK

Enterprise knowledge & retrieval systems
Dense and sparse retrieval (BM25), Qdrant vector search, grounded response evaluation and streaming APIs for banking knowledge applications.

Safe LLM automation & data access
Regulatory circular processing, action-item extraction and schema-aware natural-language-to-SQL with validation, allowlists and controlled execution.

Production LLM & governance infrastructure
GPU-backed model serving, concurrent request handling, health monitoring, sensitive-data pattern detection and automated API-quality scoring.

EDUCATION & CREDENTIALS

Doctor of Business Administration (DBA), AI & ML Leadership
Walsh College, USA | Admitted 2026

Bachelor of Engineering
Fr. Conceicao Rodrigues Institute of Technology, University of Mumbai

Additional credentials: AWS Academy Cloud Architecting & Cloud Foundations; Google Cloud Big Data & ML Fundamentals.

Selected projects, training capabilities and detailed technical portfolio: **salmonjoy.com**
